

## Homework

The scissor box will be the only homework for the first nine weeks. The scissor box consists of a pair of scissors and various cutting exercises. This will give your child practice with their cutting skills. Please have them finish cutting the papers and return the box and papers to school the next day. We have one classroom rule with the scissors: only cut paper. Please reinforce this rule at home.

Kindergarten students will have reading homework starting the second nine weeks. They will have reading homework on Tuesdays and Thursdays. This homework will be part of their reading grade.

## Discipline Plan

A "stoplight" will be used for our discipline plan. Each student starts the week with their star stick in the green light pocket. After one warning, any further problems will result in the child moving from the green light pocket to the yellow light pocket. This will result in a note home to the parents. If another infringement of rules occurs, the star stick is moved to the red light pocket. On Friday, students who have not been in the red pocket all week choose a prize from the treasure chest.
